Good to know

- **Currency.** Switzerland uses Swiss Francs (CHF), not Euros. For convenient payments in Swiss francs, you may consider using a multi-currency card/service. For example, [Revolut](#)'s Standard plan currently allows up to €1,000 per month in currency exchanges before an additional fair-usage fee applies.
- **Mobile data.** Roaming charges may apply, except with some providers (e.g., Fastweb). A convenient option is to purchase a temporary eSIM for Switzerland through services such as [Airalo](#) or [Mobimatter](#).
- **Wi-fi.** Your badge includes the login credentials for the USI-GUEST network. **eduroam** is also available on campus.
- **Tap water** is drinkable everywhere, including from the public fountains in town. Around the campus, there are several water dispensers.

If anything goes wrong, just find one of us — we are the ones with the light-blue hoodies.

Please be aware that we will be taking pictures and videos during the event. These pictures and videos will be posted on the data controller's website and social media platforms and might be shared with other interested media channels. If you prefer not to have your images shared, please let our staff know in advance.

The organizers do not accept any responsibility for individual medical, travel or personal insurance. Attendees are strongly advised to have their own travel insurance policies to cover risks including (but not limited to) loss, cancellation, medical costs and injury.

A name badge will be provided along with your conference documents, which you receive upon your registration at the registration desk. For the purposes of security and our internal regulations, wearing the badge is compulsory at all times during the conference. Only persons wearing an EUROYoung Workshop badge are entitled to attend meetings and take refreshments
